Team Competition

Please note these results are preliminary. The calculations are based on the following:

- Entrants who have 5 or more activated birds basketed for Hotspot 2 may enter the team competition.
- An entrant can enter one team only and must select which 5 activated birds will be in this competition before Hotspot 2. No changes to these birds will be permitted thereafter.
- The total points of the 5 Team pigeons in each race from Hotspot 2 including the final will be added together. Only timed birds in each race will receive points for that race. If a bird is not timed in a particular race it will get zero points but will not be eliminated.
- The team with the highest total points after the final will be the team competition winner.
