

Dark Check W/F Cock ZA-2020-OERF 6633

On sire side, this cock also descends from the core foundation birds of Gerhard Koopman and Pieter Veenstra. On dam side it descends from the top Cooreman lines regarded by many as amongst the fastest racers over all distances in the world that are in great demand. His mother is nest mate to the bird that reached the SAMDPR Knock-Out Final in 2015. Related to both our 2113 and 2112 mentioned above, brothers and sisters are super racers and this cock will improve OLR genetics in any loft he goes to.
