He is a full brother to a double federation winner.

The dam to this bird was a racing machine for Hillcrest Stud. Best Bird in the club 2018, 2nd best 2019 (beaten by a loftmate) 4th best in federation from 120+ members.  This hen is probably the best bred pigeon I have ever owned!! How often do you find 3 different International winners as grandparents???
 Her sire is GB14N88862, he is a direct son of two international winners. He is bred from Farmer George X Wollongong. Farmer George was 1st International Bordeaux (516 miles) 10,611 birds, he won the international by a staggering 63 minutes. The actual convoy was over 22,000 birds and he was 47 minutes in front of the second timed bird. In the same race he was 1st Section, 1st open British International Championship Club. Wollongong his Dam was also 1st International, she won 1st International Pau (561) miles 8,576 birds, she too won 1st West Section, 1st open British International Club.
 Her Dam is Belg 15-2317546 purchased direct from Eric Limbourg, her sire is "Black

 4th Place best bird in federation 2019, over 120 members

Many more minor positions, too many to list

The sire was bred by Carl Ballan, and due to a computer crash his records were lost. He is certain the cock was from M Kitchenbrand from the Birdy line and was part of a kit of 10 youngsters Carl purchased for R50,000, unfortunately this is based on memory only.

The Dam was a Saudi Arabian bird brought from the million dollar race 2015, she was bred by Saleh Abdullah Buhimal, sadly I have been unable to obtain a pedigree.
