The sire was bred by Carl Ballan, and due to a computer crash his records were lost. He is certain the cock was from M Kitchenbrand from the Birdy line and was part of a kit of 10 youngsters Carl purchased for R50,000, unfortunately this is based on memory only.

The Dam was a Saudi Arabian bird brought from the million dollar race 2015, she was bred by Saleh Abdullah Buhimal, sadly I have been unable to obtain a pedigree.
