13/175KM EQUAL WINNER

9/501KM HOTSPOT 4

119/175KM EQUAL WINNER

4/575KM FINAL EQUAL WINNER, WINNING R110000 FOR THE SEASON!!!

HOOYKIT is arguably one of the best hens in history to have ever raced in a OLR in South Africa, certainly the best in the last 5 to 6 years!!! Her teammate Arona Falls was less than 10 seconds in front of her in the Grand Average listing, and the 3rd Ace pigeon in the loft was a staggering 1 hour and 34 minutes behind these two brilliant pigeons!!!! It is an honour for Aces Racing Pigeons to have bred such a phenomenal specimen, well done to Petrus van Eeden.

Hooykit is bred out of super genetics from the best lofts in the world and their super bloodlines. Her father is a Hooymans cock from world renowned fancier Jan Hooymans and her mother Super 111K was bred by ourselves from a direct son of Best Kittel from PIPA and Best Kittel is arguably the best breeding cock in the world. Her mother is from the Kaasboer lines of Gaston van de Wouwer and bred by GJT Lofts.

Just a note for all the serious One Loft Fanciers and International buyers. If you buy Hooykit and her teammate Arona Falls from Aces Racing Pigeons on the TOPPIGEON Auction, you will most definitely have the best performing breeding pair currently in the world. Never have two pigeons dominated in a One Loft as these two pigeons have. This is an opportunity of a lifetime to acquire these two super specimens.

And then a final word on Grain Balancer as all South Africans know it. Grain Balancer sponsored SAPIR, and the performance of this One Loft was just awesome because the daily nutritional requirements of the pigeons were met by feeding Grain Balancer with their diet. That resulted in the fact that the best genetic pigeons in the loft could fly on a weekly basis in front, and all the Ace birds were consistently in the front batches week after week. The whole season's results of this One Loft is truly reflective of the individual ability of the birds that were entered!! Lastly, a big congratulations to Gerhard and Billy for believing in Grain Balancer and the awesome management of this One Loft and the total performance of the entire season. The whole of South Africa took notice of this great season!!
