

# SuperAce

ZA 26124 '16

7 of 10

SuperAce was a great racer and has also proven to be a good breeder. She has all the hallmarks of being a foundation bird - well balanced, one feather tail, supple muscles and an eye with plenty of character.

SuperAce was best bird FBHU in 2017 (as a yearling) and scored 9 times in her club (vs 300 birds and 23 fanciers) including first and two second places. To be crowned Ace Bird FBHU requires a bird to score consistently over several races (normally the distance races). The bird is required to beat on average 5000 - 6000 birds per race and close to 400 fanciers.

To top it all she was 13<sup>th</sup> on the Cape Classic vs 13 000 plus birds.

Her full sister was Ace bird Platinum Pigeon League (PPL). According to the previous owner, she has Cattryse as well as Florengels blood lines.
