

SuperG

This one of the best birds to originate from the Cape. A young hen who was only raced 3 times and was immediately put to stock when she beat 10, 137 birds – yes ten thousand, one hundred and thirty-seven birds! Her loft was one of the last drop lofts in the Southern part of the Cape – 54 kms further than the first drop birds – a very slow velocity race with 9 hours plus on the wing.

Not only is she a proven racer but also a proven breeder – breeding 3 winners and many top youngsters who are still racing in 2024!
