**EYE INFO:(0)**

This cock was raced but never really performed. He is a very nice pigeon n the hand, and it is the first time ever we bred this colour, resecive opal. I have decided to make him available just for the sake of his breeding and colour. His line on sire and dam has bred us many winners in the past. He is just to nice in the hand, and I hope he finds a good home. I have no idea to which line his colour threw back to. I do know that th sablon line has some VAN HEE blood in them, that carry these colours.
