ONE IN A MILLION

What a pigeon! Legendary racing hen, not only for her astonishing federation positions but rather the type of races this phenomena performed in time and time again. This hen showed character and determination that few pigeons will ever have. Statistics wise she averaged on 622km per race at 1100mpm for her 5 x Top 2 BPF Federation positions. That's an average of 9hrs 25min flying time per race over 5 x Top 2 Fed positions !

HEADWIND'S WHERE THE REAL PIGEONS FLY

The "TURF QUEEN" Legend's best performance was winning the Matjiesfontein 705KM Federation and truck against 1600 pigeons by more than 3 hours. She arrived alone at 18:40 in the evening and the second pigeons in Bloemfontein arrived after 10pm that night.
